INTRODUCTION

Trinifinity8™ represents the futuristic science of Algorithmic Technology. This unique software system was developed as a direct result of information brought back from the near death experience of Dr. Kathy Forti. Trinifinity8 is the first system of its kind to use a personal computer to deliver non-invasive rejuvenation programs based on mathematical code, vibrational energies, and fractal formulations that are in harmony with core energetics that encompass all of nature. It is the

first bio-energetic device to employ the use of pure quartz crystals rods to directly deliver information to the body.

Trinifinity8 has an energetic interface that is technologically sophisticated yet very simple to use. Trinifinity8 includes:

- Over 5,000 Bio-Energetic Rejuvenation Formulas
- A Quantum Interface that Magnifies User Intent
- Mathematical Binary Substance Coding
- Fractal Resonator Amplification
- Sacred Geometry Infusion
- Pure Solfeggio Frequency Tones
- Rapid Quartz Crystal Transmission
- Harmonic Crystal Tuning

WHAT IS ALGORITHMIC TECHNOLOGY?

Algorithm - A mathematical formula or transformation of data used in order to solve a problem.

Trinifinity8's Algorithmic Technology uses algorithms that give instructions to the body through numeric binary code. It's a simple yet profound concept that is truly evolutionary.

The universal language of man and nature is DNA and mathematics underlies the entire geometric blueprint of creation. All things that exist have a mathematical code and vibrational signature. DNA sequencing is our personal internal program software. It dictates our genetic heritage and is the determiner of how slow or fast we age and evolve. Surprisingly, we understand only a mere 5% of our DNA potential, leaving us to ask: "Is health and aging a code that can be reprogrammed to tell our bodies what to do?"

The ancient Greeks believed that, "All beauty is mathematics." Modern day scientists are discovering that reality is influenced by numerical sequencing, with patterns that resonate and repeat in cycles of time. Is it any wonder that throughout history men of science have asked, "Is God a Mathematician?"

The ancients referred to it as "Sacred Geometry" (the basis of natural logarithms) and saw it mirrored in all of nature. They revered it by incorporating it into their most ancient of monuments. The Egyptians used it to build the pyramids with exacting precision; the Greeks used it in the Pythagorean science of vibrational energies. They saw it as the common master science by which individuals could tap into the forces of the Divine by joining the physical world with the sacred spiritual world. Today scientists are once again rediscovering the field of Sacred Geometry, of divine pattern -- the same key patterns the ancients used to bring all things into manifestation. Trinifinity8 is designed on this ancient principle, yet it's more than a personal cosmetic device. It is a holistic digital information interface, which allows users to return to their ideal vibrational self---making it a spiritual tool for positive vibrational change.

HOW DOES TRINFINITY8 WORK?

Most people will have difficulty understanding how Trinfinity8's Algorithmic Technology works. You may be asking yourself: "Where's the generator? The current? I never understood geometry in school and I can't figure out how this all adds up to rejuvenation. "You don't have to know the mechanics to use a cell phone, wireless Internet connection, or a radio. Nor do you need to know or understand all of the science to use and benefit from Trinfinity8.

Trinfinity8 uses a uniquely designed fractal resonator that displays a gallery of beautiful geometric animations during different programs. (A fractal is a geometric shape that can be split into billions of parts, each of which contains an exact copy of the whole.) This fractal resonator amplifies the energetic and mathematical codes for the most powerful remedies, rejuvenators, and body elixirs that have been digitally imbedded into Trinfinity8 to maximize the desired effect.

Trinfinity8 also incorporates Solfeggio sound tones to enhance healing and transformation. These pure sacred tones have been used since ancient times to awaken a natural expansion of consciousness in order to bring about transformation. In Trinfinity8, the tones act as a carrier wave to further strengthen the transmission of digital data to the cellular system. This helps bring about a faster reprogramming of the body and the desired positive change. Trinfinity8 users have a choice of several other music selections developed to awaken, energize, and maximize their rejuvenation experience.

Trinfinity8 was designed to stimulate the body's reparative process and prevent aging from proceeding faster in senior users. Many Trinfinity8 users have reported feeling subtle energy effects during use (i.e. hand tingling, sensations of skin hydration, warmth, and deep meditative calm).

WHAT REJUVENATION PROGRAMS DOES TRINFINITY8 OFFER?

Trinfinity8 is for those who want to transform their world and take it beyond the ordinary into the realm of well-being, youthfulness and vibrational change. For that purpose, Trinfinity8 addresses a wide variety of aging concerns. No matter what your age, sex, or body type, Trinfinity8 offers something for everyone: Stress Reduction, Energy Restoration, Health & Nutrition, Skin & Hair Rejuvenation, Face & Beauty Treatments, Weight Management, and Body Sculpting.

HOW IS REJUVENATION DELIVERED?

Trinfinity8's special Algorithmic Technology allows for streams of coded data signals to be transmitted through your computer's USB port. A digital converter box then sends information to the body via specially designed hand-held double-terminated quartz crystal transmitter/receiver rods. Pure quartz crystal is very sensitive to electrical impulses and our brain operates on electrical impulses (so do computers). These crystals have been carefully lab grown for clarity and perfection. They can be used as a point probe on any external part of the body for specific spot repair.

HOW MANY SESSIONS ARE NEEDED?

The question most asked about Trinfinity8 is how long and how often should sessions be? WE ALWAYS ADVISE STARTING OUT SLOWLY WITH A SHORT 15-20 MINUTE SESSION TO GAUGE ENERGY SENSITIVITY. ONCE THIS FEELS COMFORTABLE YOU CAN ADD TIME TO PROGRAM LENGTH. Initially, twice-weekly sessions of 30-60 minutes are ideal, but a once weekly 60-minute session is standard. Results may vary depending on the individual and frequency of

use. Some effects are felt immediately, others may be subtler and take more time. Many people have reported 2-3 hour delayed effects in noticeable energy boosts after initially feeling nothing. Vibrational shifts are truly a matter of time.

Cases of moderate to extreme cellular deterioration may take additional sessions. Trinfinit8 is designed to increase awareness and to help the body regenerate at its own pace. The end goal is to help the user move towards a more ideal state of self-balance and well-being. Priority programs are noted to enhance progress.

Session Length: Click on a button for any desired program and a pop-up timer box will appear prompting you to choose the desired length of time. Users have the choice to set any program timer from one to 60 minutes in length. More is not necessarily better. The body can adjust more easily with as little as 3 minutes.

HOW SAFE IS TRINFINITY8?

Trinfinit8 is not a medical or biofeedback device. It is a cosmetic personal care product. It does not scan, diagnose or cure any medical conditions. It is completely safe for use as an rejuvenation regimen. Unlike other anti-aging devices, it doesn't cause laser burns or give off uncomfortable electrical pulses. There are no toxic injections or ingestible drugs. Trinfinit8's digital technology totally frees the user from the potentially harmful effects of invasive cosmetic surgeries and the toxic chemical additives often found in skin creams.

Because Trinfinit8 is a powerful rejuvenation tool that helps bring about a return to the ideal self, we highly recommend drinking plenty of water during and/or after use, as well as resting when a session is over, if possible. DO NOT engage in strenuous exercise activities for several hours after use. This will place undue stress on the body, thereby hampering the rejuvenation process.

Should you feel tired or slightly light headed after initial use, this is normal in the beginning process of cleansing and a return to the ideal self. If you feel dizzy then you may be sensitive to subtle energy and need to reduce your program time until your body adjusts. These symptoms will quickly diminish and disappear with continued use, good hydration and adequate post-session rest. DO NOT DO SEVERAL PROGRAMS BACK TO BACK OR MORE THAN 60 MINUTES IN ONE DAY. Subtle energy is very powerful.

CAN YOU REALLY TURN BACK THE CLOCK?

Believe in yourself as AGELESS and all else will follow. It took over five years, with the help of divine guidance and a strong belief that man could break free of the constraints of aging, before Trinfinit8 was finally born. Trinfinit8 results have been met with both amazement, awe, and of course some healthy skepticism. It's the nature of scientific advancement.

We suggest using the affirmation, "I am open to receiving higher vibrational help." See yourself as an unlimited being--capable of incredible things. Visualize and imagine the more youthful and energetic self you desire to be while using Trinfinit8. Everything starts with a dream, so we encourage others to also think outside the box. As Aristotle once said, "Taking anything to the power of its own imagination can only bring about unity and wholeness."

Imagination + desire/intent = manifestation

WHERE DO I START?

Your first step is to take an inventory of yourself and make a list of the areas you would like to transform.

NOTE: REMOVE ALL HEAVY METAL JEWELRY, EMF PROTECTORS, OR CELL PHONES FROM YOUR PERSON DURING TRINFINITY8 USE. AVOID CROSSING LEGS OR ARMS. THIS WILL ALLOW FOR GREATER FLOW OF ENERGY TO YOUR BODY. KEEP WATER ON HAND DURING A SESSION AND DRINK IT OFTEN. IT IS COMMON TO EXPERIENCE THIRST AS THE CLEANSING AND REJUVENATION PROCESS BEGINS. WATER IS A GREAT CONDUCTOR OF ENERGY.

USING THE ATTACHMENTS---

Trinfinity8's special Algorithmic Technology allows for streams of coded information to be transmitted through your USB port into a digital/analog converter device, then directly to the body via specially designed hand-held double-terminated crystal transmitter/receiver rods.

Digital Converter Box –The signal converter box plugs directly into your computer's USB port, which powers the device. All throughout ancient Atlantean and Lemurian history, crystals were referenced as a stone of power specifically used for re-tuning and rejuvenation. Quartz crystal functions as a resonator that amplifies, coheres, and transmits frequencies. It is very sensitive to electrical impulses from our brain and our computers. Trinfinity8's double terminated crystals (pointed at each end) serve to both receive and transmit, thereby strengthening energy flow. These precious stones serve to de-crystallize negative patterns, helping heal mind, body and emotions through revitalizing your etheric field.

IMPORTANT: As a precaution we always advise: DO NOT use on persons with pacemakers

CRYSTAL TUNING

The pull down music selection menu also features the use of quartz crystal singing bowl tuning. Crystal bowls are made from 99.992% pure crushed quartz and emit a powerful, pure resonance. The notes, C, D, E, F, F#, G, A, A#, B correspond with one's energy centers or chakras, thereby aligning and retuning the etheric body. When you use the crystal tuning feature you will not only experience the rich vibrant tones, but also receive corresponding digital signals transmitted through the quartz crystal rods. This gives double amplification benefits and can be a powerful tool for change.

FRACTAL ENHANCEMENT SCREENS

Trinfinity8 uses a uniquely designed fractal resonator that displays a gallery of geometric animations during different programs. (A fractal is a geometric shape that can be split into billions of parts, each of which contains an exact copy of the whole.) The beautiful and organic fractal animations used during Trinfinity8's rejuvenation process are infused with the most powerful sacred geometry known to man. Behind the scenes, layered streams of billions of binary codes of anti-aging information have been mastered to amplify the effect of the program fractals. When coupled with Trinfinity8's healing music and hand-held crystals, they function as a carrier wave to transmit digital information directly to the body.

The fractals are mesmerizing and meditative. They re-loop after 60 seconds. They help the

analytical left-brain move aside to allow right brain receptivity of information flow. Some users may wish to close their eyes during a session. It is not imperative you watch the fractals to gain the benefit of their interaction with the mathematical codes going on behind the scenes. The person still receives what they need to through the crystal rods.

COMMENTS FOR THE SCIENTIFIC & MEDICAL ORIENTED

1.) To repeat. See some scientifically and medically trained persons discuss Trinfinity8 on videos at

<http://www.trinfinity8.com>

2.) The “placebo” effect does not govern Trinfinity8 because Trinfinity8 works on pets such as cats and dogs.

3.) SCIENTIST ARE USING CRYSTALS at the birthplace of the World Wide Web (CERN)

Scientist at the world's largest particle physics laboratory (CERN) use crystals.

The European Organization for Nuclear Research (French: Organisation européenne pour la recherche nucléaire Italian: Organizzazione Europea per la Ricerca Nucleare), known as CERN is an international organization whose purpose is to operate the world's largest particle physics laboratory. CERN's main function is to provide the particle accelerators and other infrastructure needed for high-energy physics research.

Below are images of crystals being used by these scientists, and pages extracted from their treatise on the new paradigm of using crystals.

E. Tsyganov & A. Taratin (1991)

- Coherent deviation of the primary halo
- Very small probability of inelastic interaction in the crystal
- **Larger collimation efficiency**
- **Less impedance**
- **Reduced tertiary halo**
